Summary

Full Stack Developer with proven experience building scalable MERN applications, real-time communication systems, and secure backend services. Strong in translating complex requirements into clean, performant, user-focused solutions. Combines technical depth, fast learning, and strong execution to deliver production-ready software.

Skills

Languages: JavaScript, HTML5, CSS3.

Frontend: React.js, EJS, Bootstrap, Responsive UI Design.

Backend: Node.js, Express.js, REST API Development.

Database: Mongoose, MongoDB.

Tools & Platforms: Git, GitHub, Render, VS Code.

Code Strengths: Debugging, Performance Optimization, Feature Ownership.

Experience

Frontend Developer (Remote)

August 2025 – September 2025

CODTECH IT Solutions

Tools Used: ReactJS, Javascript, HTML5, CSS3

- Built **15+ reusable React components**, delivering **fully responsive UIs** across desktop, tablet, and mobile devices, improving layout consistency by 30%.
- Refactored legacy frontend codebase, reducing **duplicate code by 25%** and improving debugging efficiency and feature delivery speed.

Projects

Enhance your Collaborative Edu-Learning Platform | *Full Stack (MERN + AI)* September 2025 – March 2026

- Developed an **AI-driven real-time video conferencing platform with 73+ JavaScript files, 21 React components, and 11 custom hooks**, delivering **8+ core collaboration features** and **4 AI modules** (emotion detection, sentiment analysis, LLM-based QA) with **50–100ms face detection latency** and **2s average AI response time**.
- Engineered **WebRTC peer-to-peer streaming** and a **Socket.IO real-time system with 15+ event types**, supporting multiple participants with adaptive quality optimization, **reducing bandwidth usage by up to 50%**, while ensuring **cross-browser compatibility (Chrome, Firefox, Safari, Edge)** and **GDPR/CCPA/FERPA/HIPAA-ready compliance**.

Wanderlust–Airbnb-Style Full Stack Web Application | *(Node.js, Express, MongoDB)* April 2024 – December 2024

- Built a **production-ready full-stack web application** using **MVC architecture**, implementing **11+ RESTful APIs, 3 MongoDB models (User, Listing, Review)**, and **secure authentication with Passport.js**, supporting complete CRUD operations with role-based authorization and session management.
- Integrated **Cloudinary CDN** for image uploads, **Joi-based server-side validation** across **7+ fields**, custom middleware for security and ownership checks, and cascading deletes to ensure **data integrity, reduced server load, and a seamless user experience**.

Certifications

- **Legacy Responsive Web Design V8 – freeCodeCamp 2025:** Completed a 300+ hour Responsive Web Design certification covering 20+ projects focused on accessibility, layouts, and modern CSS.
- **Web Development Fundamentals – IBM SkillsBuild 2025:** Gained foundational knowledge of HTML, CSS, JavaScript, and website development workflows using an integrated development environment (IDE).

Education

B.E Computer Engineering

Graduated: 2026
